ABSTRACT

Data on the Illinois public community colleges, covering fiscal year (FY) 1983 and part of FY 1984, are presented in this report on students, faculty and staff, instructional programs, operating finances, and capital construction. After introductory material provides a summary profile of the colleges, a map of the college districts, and a listing of institutions, section I presents tables showing student characteristics, including headcount data for fall 1983 by sex and type of attendance, instructional program area, age, ethnic origin, academic classification, type of residency, and enrollment status; proportions of district populations served; headcount data for students enrolled in community education classes; headcount data for fall 1974 through fall 1983; and a summary of grants to disadvantaged students. Section II offers faculty and staff data, including information on instructional faculty, administrative staff, non-teaching professional staff, and classified staff for fall 1983; average base salaries; average class size; and percentage of classes by size categories. Section III presents program data, including an inventory of curricular degrees and certificates awarded in transfer and general studies, and occupational programs. Section IV provides financial data on apportionments, grants to colleges, instructional unit costs, tax levies, operating revenues and expenditures, and energy usage and costs. Finally, section V contains data on facilities and college construction. (HB)

# INTRODUCTION

This is the fourth publication of a comprehensive data book by the Illinois Community College Board (ICCB). This document contains data and characteristics of the Illinois public community college system and is designed to serve as a basic reference. No analysis of the data is intended in this document. The data are obtained from various surveys and studies conducted by the ICCB staff and from the colleges' annual MIS submissions.

This document contains annual data for Fiscal Year 1983 and fall term data for 1983 (Fiscal Year 1984). Enrollment data and faculty and staff data are collected during the fall term each year; thus, these data are Fall Term 1983 (Fiscal Year 1984). Budgeted operating finance and facilities data are for the current year, Fiscal Year 1984. Audited financial data, unit cost data, annual enrollments, and graduate data are for the past fiscal year, Fiscal Year 1983.

This publication contains information about 1) students, 2) faculty and staff, 3) instructional programs, 4) operating finance, and 5) capital construction. Each of these areas constitutes a section of this document. Several tables summarize data from more detailed reports that have been published separately. The objective of this document is to provide useful summaries of data for community college districts in one reference document. If you have requests for other data or suggestions for additions or deletions, please contact the ICCB Office.

Special acknowledgment is extended to the personnel of the colleges for their cooperation in completing surveys and providing the ICCB with computer-readable data on a timely basis.

Table 1 on the next page is a summary profile of selected statistics for the 39 Illinois public community college districts. The map on page vii shows the geographic location of each college district.

Illinois Community College Board

## Section I

## STUDENT CHARACTERISTICS

This section includes data on headcount and full-time equivalent (FTE) student enrollments in Illinois public community colleges.

The public community colleges of Illinois enroll more than 50 percent of all students enrolled in higher education in the State of Illinois. The diverse population of the communities that the colleges serve is reflected in the student characteristics shown in this section.

The tables show student enrollments based on opening counts (10th-day enrollments) for a given term. Opening enrollment counts are a snap-shot count at the end of the regular registration for the fall term and do not include many students who enroll for courses which start later in a term.

Table I-1 shows that the annual unduplicated headcount enrollment in Illinois public community colleges for Fiscal Year 1983 was 796,191.

Table I-2 shows the fall 1983 student headcount enrollment by sex and type of attendance. Fifty-seven percent of the enrollments in Illinois public community colleges were women. Part-time students accounted for seventy percent of the enrollments.

Table I-3 shows the fall 1983 student headcount enrollment by instructional program area. Thirty-seven percent of the students were enrolled in baccalaureate transfer programs, thirty-seven percent in occupational programs, six-tenths of one percent in remedial/developmental programs, eleven percent in general studies programs, five percent in vocational skills programs, and eight percent in adult basic education/adult secondary education programs.

The data in Table I-4 show fall 1983 headcount enrollment by age categories and provide the median age of students for each public community college. The median age for fall 1983 students was 26.7 years. This is up .9 years from the fall 1982 median age of 25.8. The mean age was 31 years.

Table I-6 shows that approximately seventeen percent of fall 1983 students were classified as sophomores. Fifty-seven percent of the fall 1983 enrollments were classified as freshmen.

Table I-11 shows the trends in community college headcount enrollments from fall 1974 through fall 1983. Table I-12 shows the trends of FTE enrollments for the same ten-year period.

Table I-13 provides a summary of students served through ICCB disadvantaged student grants for Fiscal Year 1983. A total of 184,046 received support services and approximately 41,000 attended courses supported by disadvantaged student grant Restricted Purposes Funds.

SOURCE OF DATA: Annual Disadvantaged Student Grant Report

## Section II

## FACULTY AND STAFF DATA

The tables in this section show data regarding faculty and staff employed by the public community colleges of Illinois. The salary and staff data were collected in fall 1983 and reflect averages for Fiscal Year 1984.

Table II-1 shows the number of instructional teaching faculty by sex and employment status employed during fall 1983. Of the 18,080 teaching faculty employed in Fall 1983, 4,874 were full-time faculty.

Table II-2 shows the total number of administrative staff by sex and employment status. Administrative staff includes both academic and general administrative personnel, such as the President, Dean of Instruction, Dean of Student Services, Director of Financial Aid, Director of Counseling, and other similar administrative positions.

Table II-3 shows the number of full-time and part-time other professional staff by sex and employment status employed in each community college. Other professional staff includes counselors, librarians and other instructional support staff. Table II-4 shows the same information for classified or civil service type staff.

The average contractual base salaries paid to full-time teaching faculty, full-time administrative staff, and full-time other professionals are shown in Table II-5.

Table II-6 shows the average class size for lecture/discussion classes and laboratory classes. Table II-7 shows a percent distribution of classes by size for each community college.

## Section III

## PROGRAM DATA

This section includes information on instructional programs offered by the Illinois public community colleges.

Table III-1 provides an inventory of curricula approved at each of the 52 public community colleges. The colleges are listed alphabetically within each region of the state. The various occupational curricula provided are listed by Classification of Instructional Programs (CIP) code. Each curriculum is designated as follows:

1 - Curriculum leading to an Associate Degree (60 semester credit hours or more)

2 - Curriculum leading to a certificate of 30 semester credit hours or more

3 - Curriculum leading to a certificate of less than 30 semester credit hours

C - Curriculum provided through a cooperative agreement with another community college, proprietary institution, out-of-state institution, or senior public institution

Table III-2 shows the number of Associate degrees awarded in transfer and general studies curricula and the number of general studies certificates awarded by each community college in Fiscal Year 1983.

Table III-3 shows the number of Associate degrees and certificates awarded in occupational curricula and the number of vocational skills certificates awarded by each community college in Fiscal Year 1983.

## Section IV

## FINANCIAL DATA

Presented in this section are financial data on audited and budgeted revenues and expenditures, chargeback computations, local tax rates, tuition and fees and state aid grants.

Tables IV-1 through IV-3 give historical data for annual enrollments, ICCB grants to colleges, and net instructional unit costs.

Table IV-4 shows the Fiscal Year 1983 apportionment credit hours for the seven instructional categories and the total apportionment credit hours for each community college district. Apportionment credit hours are those hours which qualify for state credit hour reimbursement funding.

Table IV-5 and IV-6 show the state grants received by each community college during Fiscal Year 1983 and Fiscal Year 1984 for each category of grants.

Table IV-7 shows the per capita costs per credit hour, the chargeback rate, and tuition and fee rates for each community college. Colleges are limited by law to a tuition rate of one-third of their per capita costs.

Table IV-8 lists the total 1982 operating tax extensions, corporate personal property replacement tax paid to each community college district in Fiscal Year 1983, and the net operating corporate revenues which are total CPPRT less an allocation to the colleges' bond and interest funds.

Table IV-9 shows each college's 1982 tax levies for worker's compensation insurance, tort liability insurance, unemployment insurance, audits, and the bond and interest fund.

Table IV-10 shows the Fiscal Year 1983 net instructional unit cost for the seven instructional categories for each community college district.

Tables IV-11 through IV-13 show revenues by source and expenditures by object and function reported in the colleges' Fiscal Year 1983 external audits. Tables IV-14 through IV-16 show revenues and expenditures budgeted by each community college for Fiscal Year 1984.

Tables IV-17 and IV-18 show energy usage and costs for each college for Fiscal Years 1981 through 1984.

## Section V

## FACILITIES DATA

This section on facilities presents two types of data: the first part gives data on physical facilities available on community college campuses and the second briefly describes how the facilities were financed.

Table V-1 summarizes the total acreage on each college campus by nine categories of land use.

Table V-2 summarizes the total net assignable square feet (NASF) and gross square feet (GSF) available on each community college campus.

Table V-4 gives the percentage of classroom and laboratory utilization by time of day for fall 1983 (Fiscal Year 1984).

Tables V-5 through V-7 show the NASF by function of space on each campus for completed facilities. The NASF is shown for state funded facilities, locally funded facilities, and temporary facilities.

Table V-8 shows the NASF by function of space in facilities under construction which are state funded. Table V-9 shows this breakout for locally funded permanent facilities approved or under construction.

Table V-10 shows the amount of space per college justified for state supported construction based on the enrollment criteria utilized by both the IBHE and the ICCB. The calculation is based on the following formula:

For facilities other than occupational program instructional shops:

| On-campus FTE Day Students | Gross Square Feet Per On-campus FTE Day Student |
|---|---|
| For the first 1,500 students | 110 |
| For the next 1,500 students | 100 |
| For each student above 3,000 | 90 |

For occupational program instructional shops, 140 gross square feet per on-campus FTE day student enrollment in courses using such shops.

Table V-11 gives a computed figure for space (room use category) per student (10th day on-campus FTE).

Table V-12 depicts the sources of funding for each college's permanent facilities. One district (Richland) has no permanent facilities and, therefore, has received no state appropriation. John Wood has only one small extension center facility partially funded by the state. State Community College's facilities were totally funded by state appropriation.

Table V-13 lists the budgeted sources of funding for all known capital projects for each of the 52 campuses as of February 1, 1984. The total cost of the individual project, as well as district totals, are shown for all completed projects. Table V-14 provides the same information for projects currently under construction as of February 1, 1984.

NASF = Net Assignable Square Feet
GSF = Gross Square Feet

*Building efficiency equals net assignable square feet divided by gross square feet.

(a) Includes sources such as interest earned, transfers from operating funds, foundation grants, and in-kind credits.
(b) Does not include grants for technical assistance (T.A.).
(c) Differs from appropriation because of construction defects or bids under budget.
(d) May not include site and construction funds expended for movable equipment.
(e) Three buildings constructed in cooperation with the Chicago Public Building Commission.
